### VOLUNTEER ACTIVITIES

Organized a resume workshop for more senior coworkers with little computer experience.

**Atlantic Outreach Group**  
Assembled hygiene and emergency food kits

### PROFESSIONAL PROFILE

An innovative and self-motivated software engineer seeking an opportunity where I can utilize the extensive knowledge I have gained during my apprenticeship. I value knowledge and am currently seeking certifications to make me an asset to your company. Proficient in implementing new features based on user feedback, troubleshooting code, and brainstorming new layouts.

### EXPERIENCE

**Road To Hire** Fullstack software engineering apprentice

- Collaborated in teams to design, develop, and implement technical solutions across full-stack development tools and technologies
- Created 5 websites, these include an e-commerce, portfolio, and social justice site.

**Kellam Mechanical** Installation Helper

- Examined building layouts, forecasted issues, and synchronized work to determine requirements for installation and repairs.
- Diagnosed electrical problems, installed and rewired electrical components.

### EDUCATION

**Major in Mechanical Engineering**

Old Dominion University (2018 - 2020)

- Member, Emerging Monarchs Leadership program
- Member, and Treasurer, Club Softball

**Major in Computer Science**

Tidewater Community College (2020 - 2022)

- Recipient of the Women's STEM Promise Program
